SPECIAL FEATURE

Drawn teams

Difficulty & Grouping

When registering, every jumper first chooses the difficulty level at which they would like to compete. A fixed compulsory routine is defined for each of these levels. The voluntary routine is also subject to minimum requirements based on the chosen difficulty.

From all participants, teams of four are then drawn. Wherever possible, we try to mix the groups so that no university is represented twice in the same team.

Competition Format

Within each team of four, the two synchronised pairs can be formed freely. The compulsory routine is therefore performed in self-chosen pairs, while the voluntary routine is then jumped together as a team of four.

03 · Voluntary

Voluntary Routine Flow

- The voluntary routine consists of 20 elements and is performed together as a team of four.
- Each person jumps 5 elements.
- The routine starts on a soft landing mat and the last jump ends on the opposite mat.
- The requirements must be met depending on the chosen difficulty level.

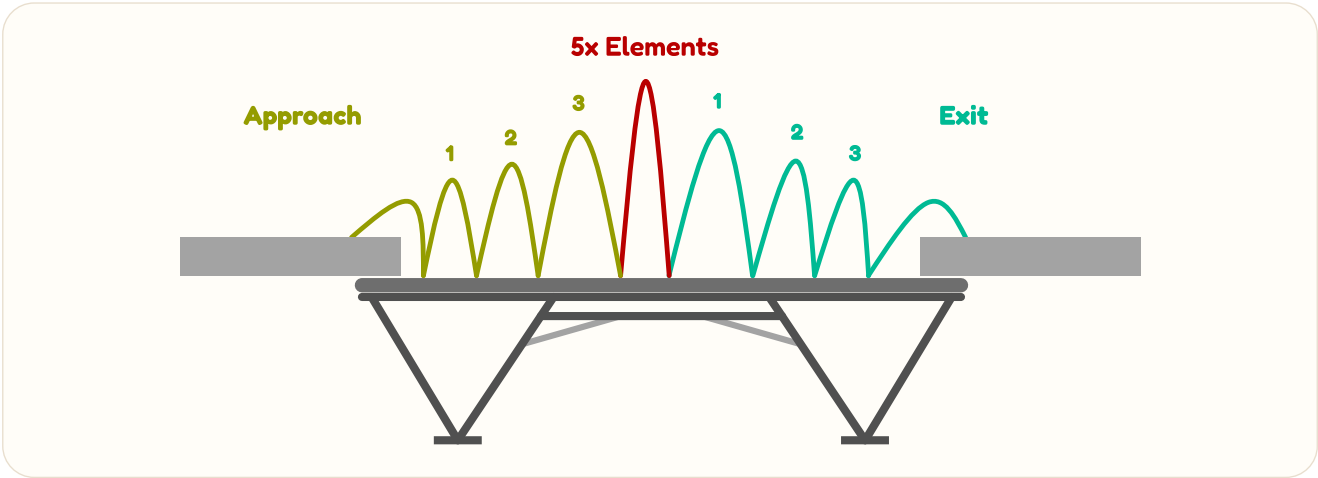

An explanatory video and example material on the voluntary scoring can be found at [mixitcup.github.io](https://github.com/mixitcup)

Requirements

Approach & Exit Jumps (Level 1)

Notes

- Repeated jumps and jumps beyond the salto limit per person do not count toward the requirements and earn no difficulty points.
- Repeated jumps within the team are allowed.
- In **Level 4**, the first and last bed contact do not have to be on the feet. Therefore, neither taking off for the first element from the feet nor landing the last element on the feet is mandatory.
- Only the 5 elements per person are scored. Approach and exit jumps receive neither difficulty nor form marks.

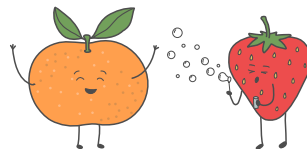

Penalties

- Per additional approach or exit jump: -0.5
- Per $\frac{1}{4}$ missing salto rotation: -0.2
- Per $\frac{1}{2}$ missing twist: -0.2
